ABOUT US

WHO WE ARE?

DEW HVAC Training Services Center, LLC stands at the forefront of HVAC education, offering a training facility meticulously designed to replicate authentic working conditions. Here, students gain hands-on experience in troubleshooting, installing, repairing, servicing, duct work - installing, fabricating, repairing, etc.- and maintaining HVAC systems, just as they would in the field. This immersive approach ensures that our graduates not only possess theoretical knowledge but are also adept problem-solvers, fully prepared to overcome any challenge in their careers.

Through rigorous real-world applications, simulations, and Interactive Virtual Reality simulations, students are immersed in the actual challenges faced in the HVAC industry. They tackle intricate repairs and optimize complex systems, engaging with genuine HVAC scenarios that build their confidence and expertise. DEW HVAC Training Services Center, LLC goes beyond the basics, providing a comprehensive education that encompasses technical skills and practical problem-solving abilities.

Our mission, rooted in practical learning, inclusivity, and empowering student aspirations, is reshaping the standards of HVAC training. In the dynamic world of HVAC, theory alone is insufficient. Mastery of heating, ventilation, and air conditioning systems demands practical experience.

DEW HVAC Training Services Center, LLC leads the way by offering unparalleled hands-on training, bridging the gap between theory and practice through real-world applications and simulations. Join us as we redefine the landscape of HVAC education, ensuring our graduates are not only knowledgeable but also proficient, confident, and well-equipped for successful careers in the field.

WHY CHOOSE US?

Unlock Your Future with HVAC Training Excellence!

Are you ready to take your career to new heights? Look no further! Our comprehensive HVAC Training program is your ticket to a high-paying, in-demand career in the booming heating, ventilation, and air conditioning industry.

Why Choose Our HVAC Training Program?

- ✓ **Expert Instructors:** Learn from experienced professionals who bring real-world expertise to the classroom.
- ✓ **Hands-On Learning:** Get your hands dirty and gain practical skills in our state-of-the-art training facilities.
- ✓ **Industry-Relevant Curriculum:** Stay ahead of the curve with a curriculum designed in consultation with industry experts.
- ✓ **Certification:** Earn nationally recognized certifications that open doors to a world of opportunities.
- ✓ **Flexible Learning Options:** Balance your studies with your busy life. We offer flexible schedules.

What You Will Learn:

- 🔧 HVAC Systems Installation and Maintenance
- 🔧 Electrical Systems and Controls
- 🔧 Refrigeration Technologies
- 🔧 Energy Efficiency and Sustainability
- 🔧 Troubleshooting and Repair Techniques
- 🔧 Ductwork Installation, Maintenance and Repair

Secure Your Future Today!

Don't miss out on the chance to build a stable and rewarding career.

START your journey toward a successful future!

VISION & MISSION & GOAL

Vision

Our vision at DEW HVAC Training Services Center, LLC is to provide a comprehensive HVAC hands-on field experience based learning environment program that covers all technical aspects of the industry. We are dedicated to offering training for a wide range of HVAC systems, including Heat Pump, Gas Furnace, Mini Split, PTacs, Vert-I-Pak, Package Unit, Split Systems, Mobile Home, Apartment Style Units, and much more.

In addition to technical training, we focus on enhancing customer service and client relations. Our center conducts seminars and workshops tailored for HVAC applications in various settings, including automobiles. We offer specialized training series such as Refrigeration, Duct Cleaning, and Duct Fabrication. Safety is paramount, and we provide CPR Training to ensure our technicians are well-prepared for any situation.

But our commitment doesn't stop there. We believe in showcasing the talent and skills of our technicians. Through our Technician Showcase, we provide a platform for our technicians to demonstrate their learning and expertise. This initiative not only facilitates hiring opportunities for businesses but also allows our technicians to shine and be recognized for their achievements in the HVAC field.

At DEW HVAC Training Services Center, LLC, we are not just shaping technicians; we are fostering a community of skilled professionals ready to excel in every aspect of the HVAC industry. Join us and be a part of this transformative journey towards HVAC excellence.

Mission

DEW HVAC Training Services Center, LLC's mission is to provide training for services in the field of HVAC to individuals to become professional, certified, and employable in the field of HVAC through hands-on learning, field experience, simulations, and much more. We promote knowledge and understanding for the field of HVAC, build character, and provide service for communities by teaching HVAC technicians positive morale, customer service excellence, and customer relation through real life and real time learning experiences.

Goal

To train you to DEW the work by transforming HVAC Careers through Comprehensive Training for services in the field of HVAC.

OUR TRAINING SERVICES

-  HVAC
-  NATE PREP
-  GED PREP
-  EPA AND NATE TESTING

HVAC Certification including EPA prep and testing

The HVAC Certification program consists of 216 in-person training hours, 80 online simulations course work hours, 40 field experience hours, 10 Osha training hours (including test), EPA testing (including 1 retake of your choosing), Tool Kit with Tool Bag, and a hosts of seminars and workshops. This also includes uniforms, books and resources.

GET TRAINED AND EPA CERTIFIED in under 4 months.

NATE PREP including NATE testing

NATE, or North American Technician Excellence, certification signifies a high level of expertise and competence in the HVACR field. HVACR technicians who obtain NATE certification have demonstrated their knowledge and proficiency by passing rigorous exams that assess their understanding of various HVAC systems and components. These certifications cover a wide range of specialties, including air conditioning, heat pumps, gas furnaces, air distribution, oil heating, hydronics gas, and hydronics oil, among others. For consumers, hiring NATE-certified technicians provides assurance of professionalism and competence. NATE-certified technicians are known for their expertise, ensuring that they can properly install, maintain, and repair HVACR systems, leading to enhanced comfort and energy efficiency for consumers. NATE certification is a mark of quality in the HVACR industry, indicating that technicians have met nationally recognized standards of excellence, making them highly skilled professionals in the field.

We are offering a comprehensive package for HVAC technicians preparing for the NATE Test. This package includes:

1. NATE Prep: Preparation materials and resources tailored to help individuals succeed in the NATE Test.
2. Practice Exams: Practice tests that simulate the actual exam experience, allowing participants to assess their readiness.
3. CORE Test: This refers to the NATE Core exam, which covers fundamental HVAC knowledge and skills.
4. HEAT PUMP Specialty Test: A specialized test focusing on heat pump systems, a common component in HVAC systems.
5. One Retake Attempt: If a participant fails one of the tests (CORE or HEAT PUMP specialty test), they have one opportunity to retake the test. In the event a participant fail both tests, DEW HVAC Training Services Center, LL will only cover one of the test. The participant will be responsible for the other failed test. DEW HVAC Training Services Center, LLC will only cover ONE additional attempt.

OUR TRAINING SERVICES

-  HVAC
-  NATE PREP
-  GED PREP
-  EPA AND NATE TESTING

6. HVAC Technician Development: Participants will receive training and resources for professional development as HVAC technicians.

7. Continuing Education Units (CEUs): The program provides 16 CEUs, which are essential for NATE recertification. HVAC technicians need to earn at least 16 CEU's to maintain their certification and stay updated with industry advancements.

This comprehensive offering is designed to support HVAC technicians not only in passing the NATE Test but also in continuing their professional development and maintaining their certification through ongoing education.

****NATE TESTING ONLY****

This option includes NATE Test (CORE and 1 specialty test). This option does not include the prep coursework. This option does not include a 2nd attempt covered by DEW HVAC Training Services Center, LLC. This means that if someone doesn't pass a test on their first attempt and needs to retake a test, they would be responsible for covering the retake fee themselves.

GED PREP including all tests

Our GED preparation program is a specialized educational initiative crafted to assist individuals in getting ready for the GED test. The program covers all subjects, and the preparation process involves small group sessions with a hands-on approach. Each subject is tackled and tested one at a time, ensuring focused and comprehensive learning. Additionally, we offer one retake for each test in the event of a failed attempt, providing students with an opportunity to improve their scores.

GET TRAINED, EPA CERTIFIED AND A HIGH SCHOOL EQUIVALENCE DIPLOMA in under 4 months.

WATCH CARE SERVICES

Everyone is welcome, and no one will be turned away. We offer supervision and care for the children and/or dependents of participants who are currently on-site and attending class.

TESTING CENTER

We offer EPA and a range of NATE testing, in addition to Ready for Work Examinations and OSHA preparation and tests. Our center serves as a one-stop shop to address all your career goals. Most of our services include at least one retake exam, covered by us.

- 1 EPA
- 2 NATE
- 3 READY TO WORK
- 4 OSHA

Everyone is welcome, and our services are open to the public.

REGISTER, COST, PAY & FINANCE OPTIONS

● Register

There are two convenient ways to register for our services:

- Option 1: Fill out an inquiry form on our website (www.dewhvactrainingsc.com), and we will reach out to you within 24-48 hours to help you register for our services. Please call us at 1-844-SCDEWAC, if you don't hear from us within this time frame.
- Option 2: Register in person at 3820 Faber Place Dr., Suite 300, North Charleston, SC 29405. You can complete a registration form in person, and we will contact you within 24-48 hours to help you enroll in our services.

The process:

Once you submit an inquiry form, we will contact you to discuss our services, payment options, and help you enroll with at least a down payment. Please note that a background check is conducted for informational purposes only and does not disqualify any participant from our services.

● Cost

- HVAC Certification - \$9500
- NATE Prep and Testing - \$1500
- NATE Testing Only - \$500 (Core and 1 specialty)
- EPA Testing Only - \$150
- Watch Care Services - starting at \$520/cohort/dependent
- GED Prep and Testing - \$1000

Bundle and Save!!

● Pay & Finance Options

All payments are received online through Mia Share, partnered with DEW HVAC Training Services Center, LLC. DEW HVAC Training Services Center, LLC also works with Mia Share to provide several different payment plan options that are affordable and equitable.

H.E.L.P. PROGRAM

HVAC EMPLOYEE LEVEL-UP PARTNERSHIP

HVAC Business Owners* & Organizations

Enhance your business or organization by investing in your employees or members and with our services. Our HVAC Training program offers a unique feature - the Technician Showcase. This allows you to witness the practical skills acquired through our program, ensuring that your investment translates into tangible expertise. To push this initiative we are partnering with a non-profit organization to help cover the cost of technician training.

Employee Ready for Work

Our comprehensive hands-on, field experienced-based training program bridges the gap between theoretical knowledge and practical skills. We equip technicians to effectively perform the tasks. Our training covers EPA and NATE certifications, along with seminars and workshops. Technicians learn troubleshooting and repair techniques, actual unit installations, duct fabrication, repair and installation, and systems maintenance. Our program encompasses a variety of systems including heat pumps, gas furnaces, mobile homes, apartment-style units, Packaged, Vert-I-Paks, package units, split systems, and mini-split systems.

Exclusive Discounts

Take advantage of our testing discounts and exclusive perks. DEW HVAC Training Services Center, LLC will cover at least 1 retake depending upon service package. We also offer reduced or free rates for Continuing Education Unit (CEU) courses for NATE recertification. Plus, you can bundle our services and save even more.

Exclusive Benefits

By partnering with us, you gain access to our exclusive events, unlimited entry to our Technician Showcase, community events, marketing opportunities, and much more.

BENEFITS AND PERKS

Personable Learning Environment

We offer a comprehensive, hands-on, field experience-based training program that encompasses all aspects of the HVAC industry.

Interactive Virtual Reality Simulations

Our IVR (Interactive Virtual Reality) system provides practical, real-world applications for installing, troubleshooting, and learning HVAC systems.

Workshop and Seminars

We offer a wide range of workshops and seminars, including but not limited to CPR training and certification, a three-part series on Refrigeration (both commercial and industrial applications), HVAC in an automobile, blueprint reading and load calculations, as well as EPA and NATE seminar series. Our "Become a Boss" workshops cover various essential topics such as resume and business plan writing, financial literacy sessions, steps for starting your own company, government contracting, sub-contracting, and much more.

HVAC Technician Showcase

Our Technician Showcase provides an opportunity for our technicians to be featured in front of various businesses, enabling potential hiring opportunities. It's not just about displaying certifications; our goal is to demonstrate practical skills. We emphasize that our technicians are not only certified but also equipped to perform the job effectively. They are ready for work and capable of operating their own service vehicles confidently.

FOR MORE INFORMATION

- **Interplay**

- Interplay Learning is the leading provider of immersive technical training for the skilled trades through life-like simulations. Interplay has been the leader within the HVAC space for years, with a catalog of video and simulation-based courses covering everything from basic theory to advanced troubleshooting in both residential and commercial scenarios. Through experiential learning, students gain hands-on experience virtually, and improve their skills rapidly to become job-ready much more quickly than traditional methods - not to mention how fun the training is!

- **Mia Share**

- **With Payment Plans**, instead of paying your full tuition up-front, you will pay a fixed deposit and the rest of your tuition over a number of interest-free payments set in your contract terms. 1) Submit an application 2) Sign your Contract 3) Make Payments! It is just that simple.
